

DOCKET NO.: **IA-004
Application No.: 10/663,325
Notice of Allowance Dated: October 9, 2008

PATENT

REMARKS

Applicants hereby amend the specification to clarify the priority claim. The present application is a continuation of patent 6,622,168 (application number 09/722,260) and that patent claims priority to provisional application 60/195,806.

Applicants and the examiner previously agreed to amend the title of the application to “Dynamic Page Generation Acceleration Using Component-Level Caching by *Determining a Maximum Navigation Probability for a Particular Cache*,” as noted in the interview summary of October 9, 2008 memorializing the telephonic interview of September 23, 2008. This italicized portion was omitted from the Notice of Allowance of October 9, 2008.

Applicants wish to point out that they understand the present title of the application to read, “Dynamic Page Generation Acceleration Using Component-Level Caching by Determining a Maximum Navigation Probability for a Particular Cache.”

Date: January 9, 2009
